High Grade Seeds, Implements, Fertilizers, Twines, and Market Gardeners' Requisites

IT IS WITH GREAT PLEASURE that we present you our catalog for 1937. All stocks listed are of highest quality, while several of our selections will stand out as being decided improvements over other existing strains.

We are also happy to announce the commemoration of our 25th year in the seed business at Chicago. When Mr. N. Sluis founded this business in 1912 the thought uppermost in his mind was to sell **THE BEST** and nothing else. He felt there was a definite need for a seed house which specialized in selected strains. That his vision was correct and his policy sound became evident the second year when the volume of orders more than doubled over the first season. From the very beginning the business has seen a constant growth with an ever-increasing number of customers. Mr. Sluis looked forward to the silver anniversary of the concern he established, but on January 2, 1935 the grim hand of death took him out of our midst at the age of 68 years. Altho his wise counsel and able leadership are greatly missed we have not forgotten the lessons he taught us. Our sole purpose is to carry onward the principles and policies established in 1912 with the unshakable conviction that there is no substitute for quality.

May we continue to receive your orders, feeling sure that our merchandise and our service will bring you satisfaction, as well as profit. Thank you.
